Job Description

NewGen is currently hiring at the undergraduate and/or graduate level for a Regulated Utility Financial Analyst/Consultant role in our Richardson, Texas (Dallas); Austin, Texas; or Lakewood, Colorado (Denver) office. Duties of this position include, but are not limited to:

- Assist in the preparation, review, and analysis of regulated utility retail applications before regulatory utility commissions and courts of law including the examination, preparation, and challenge of revenue requirements, cost of service, and rate design.
- Participate in and support ongoing litigation efforts including the review and preparation of discovery, filings, schedules, workpapers, testimony, and settlement materials.
- Review and analyze financial statements and financial information to assess overall utility management, financial performance, and adequacy of current and proposed pricing structures.

This position is a full-time position, with benefits including holidays, personal time off and a retirement program.

Regulated Utility Financial Analyst / Consultant

Minimum Qualifications

- Degree in accounting, finance, or similarly rigorous program with a focus on mathematics from an accredited four (4) year college or university.
- Extremely detailed oriented with strong analytical and quantitative skills, including a knowledge of financial forecasting modeling techniques in Microsoft Excel.

Preferred Qualifications

- Knowledge of the NARUC or FERC System of Accounts, regulatory and administrative law process, and general ratemaking guidelines promulgated by the American Water Works Association and Water Environment Federation.
- Preference for at least one (1) year of full-time work experience in utility accounting or finance, public accounting, regulatory commission staff, or directly related work experience.
